- Complex Pain Requirements in Maternity (Management of)
- Day Assessment Unit services at KTC and the ALEX Maternity HUBs - SOP
- DNA Guideline - (Follow up of failed attendance within Maternity Services)
- Home Blood Pressure Monitoring (HBPM) in pregnancy guideline
- Homebirth Guideline
- Membrane Sweeping
- Women and Children's services WAHT and WVT
- Antenatal Hand Expressing (Leaflet)

Neurological

- Epilepsy in Pregnancy

Psychiatric

- Mental Health Conditions in Pregnancy (Management of)

Other Medical Problems

- Obstetric Cholestasis

Safeguarding

- Alcohol in Pregnancy
- Domestic Abuse
- Referral for Mental Health Services – Urgent Assessments
- Standard Operating Procedure for the Female Genital Mutilation Information Sharing System (FGM-IS)
- Substance Misuse Policy - Management of Women

Screening

- Anomaly Ultrasound Scan (18+0 - 20+6)
- Antenatal Chlamydia Screening for all <25 years olds SOP
- Antenatal Paediatric referral
- Chlamydia Screening Guideline
- Dating Scans
- Fetal Anomaly Screening - Down's, Edward's and Patau's Syndrome
- Fetal Anomaly Suspected/Identified (Management of)

- Fetal Medicine - Invasive Testing
- Hepatitis B Screening and Multidisciplinary care of pregnant women known to be Hepatitis B Positive
- Hepatitis C Positive in Pregnancy
- Higher Chance Screening Counselling Checklist
- HIV Positive in Pregnancy
- Increased NT at Dating Scan Counselling Checklist
- Low PAPP-A MoM (Management of)
- Newborn Bloodspot Screening (NBBS) Guideline
- Quadruple Screening test for Antenatal Clinic- Standard Operating Procedure
- Sickle Cell and Thalassaemia in Pregnancy (Management of)
- Syphilis In Pregnancy (Screening and Management)
- Ultrasound for Suspected IUD (SOP)
- Ultrasound Scans in the third Trimester
- Viability Scans

Intrapartum

Midwifery Led Care

- Care in Labour
- Homebirth Guideline
- Intrapartum and Postpartum Bladder Care Guideline
- Perineal Tears and Repairs
- Transfer of women and/or babies from the community to Hospital
- Vaginal Cleansing at the Time of Caesarean Section
- Waterbirth Guideline (Including Risk Assessment)

Consultant Led Care

- Anomaly Ultrasound Scan (18+0 - 20+6)
- Bereavement Care Guideline for Management of Women and their Family Experiencing the Loss of a Baby
- Blood Product Refusal in Pregnancy and Postnatal Period (Management of)
- Breech Presentation Guideline (Including ECV, Breech Birth and Emergency Procedure)
- Care in Labour
- Dating Scans
- Diabetes in Pregnancy -Gestational
- Emergency Caesarean Section
- Enhanced Care for the Severely Ill Obstetric Patient

- Fetal Monitoring -Intrapartum
- Group B Streptococcal (Early Onset - EOGBS) Disease (Prevention and management)
- Hepatitis B Screening and Multidisciplinary care of pregnant women known to be Hepatitis B Positive
- Hepatitis C Positive in Pregnancy
- HIV Positive in Pregnancy
- Induction of Labour (IOL) Guideline
- Intrapartum and Postpartum Bladder Care Guideline
- In-Utero Transfer Guidelines
- Management of Thrombocytopenia in pregnancy and the Management of Gestational Thrombocytopenia
- MEOWS - observations within Maternity
- Multiple Pregnancy
- Pelvic Girdle Pain (PGP)
- Perinatal Palliative Care and Bereavement Guideline
- Ruptured Uterus
- Spontaneous Preterm Labour (Management of)
- Ultrasound Scans in the third Trimester
- Vasa Praevia (Prenatal Diagnosis and Management of)
- Viability Scans

Obstetric Emergencies

- Amniotic fluid embolism (AFE)
- Cord Prolapse (Management of)
- Enhanced Care for the Severely Ill Obstetric Patient
- HELLP/AFLP/Eclampsia (Management of)
- Hypertension in Pregnancy (including Chronic Hypertension and Pre-Eclampsia)
- Maternal Death Policy for use by Health Professionals
- Sepsis in Pregnancy and Postnatal (Detection, Investigation and Management of)
- Shoulder Dystocia (Management of)

Operative Procedures

- Breech Presentation Guideline (Including ECV, Breech Birth and Emergency Procedure)
- Elective Caesarean Section (Including Maternal Request Caesarean)
- Emergency Caesarean Section
- Gentle Caesarean Section- Standard Operating Procedures
- Inverted uterus

- Manual Removal of Placenta
- MEOWS - observations within Maternity
- Obstetric Pre-Operative Checklist
- Perineal Tears and Repairs
- Postpartum Haemorrhage (PPH) including Massive Obstetric Haemorrhage (Management Of)
- Vaginal Operative Delivery (Kiwi, Ventouse and Forceps)

Miscellaneous

- Clinical Supervision of Locum and Temporary Medical Staff in Obstetrics and Gynaecology
- Maternity and Neonatal Services Escalation Policy
- Safe Staffing Levels – Obstetricians

Postnatal

Mother

Midwifery Led Care

- Perineal Tears and Repairs
- Rhesus Negative Blood in Pregnancy (including FFDNA and Anti-D Prophylaxis)

Consultant Led Care

- MEOWS - observations within Maternity
- Perineal Tears and Repairs
- Postnatal Readmission
- Rhesus Negative Blood in Pregnancy (including FFDNA and Anti-D Prophylaxis)

Obstetric Emergencies

- Enhanced Care for the Severely Ill Obstetric Patient
- HELLP/AFLP/Eclampsia (Management of)
- Hypertension in Pregnancy (including Chronic Hypertension and Pre-Eclampsia)
- Maternal Death Policy for use by Health Professionals
- OBS UK PPH Management SOP
- Postpartum Haemorrhage (PPH) including Massive Obstetric Haemorrhage (Management Of)

- Sepsis in Pregnancy and Postnatal (Detection, Investigation and Management of)

Medical Disorders

- Anaesthetic Management of Post-Partum Neurological Complications
- Diabetes - Type 1 & 2 (in Pregnancy)
- Diabetes in Pregnancy -Gestational
- Epilepsy in Pregnancy
- Hepatitis B Screening and Multidisciplinary care of pregnant women known to be Hepatitis B Positive
- Hepatitis C Positive in Pregnancy
- HIV Positive in Pregnancy
- Hypothyroidism in pregnancy
- Management of Thrombocytopenia in pregnancy and the Management of Gestational Thrombocytopenia
- Mental Health Conditions in Pregnancy (Management of)
- Red Cell Antibodies in Pregnancy
- Regional Anaesthesia Alert Bracelet - Standard Operating Procedure
- Syphilis In Pregnancy (Screening and Management)
- VTE occurring in Pregnancy

Operative Procedures

- Dural Puncture - Management of headache

Safeguarding

- Domestic Abuse
- Referral for Mental Health Services – Urgent Assessments

Miscellaneous

- Infant Feeding Support for Breastfeeding and Lactating Mothers admitted to Hospital outside of Maternity SOP
- Intrapartum and Postpartum Bladder Care Guideline
- NIPE Standard Operating Procedure
- Postnatal Care Planning and Provision of Information to Women in the Postnatal Period
