

Newborn Hearing Screening- Was Not Brought Protocol on Outpatient Clinics

This guidance does not override the individual responsibility of health professionals to make appropriate decision according to the circumstances of the individual patient in consultation with the patient and /or carer. Health care professionals must be prepared to justify any deviation from this guidance.

Introduction

All live births in Worcestershire are offered a newborn hearing screen. This is often performed on the neonatal ward prior to discharge. Babies who are discharged before the hearing screen is performed are offered an outpatient appointment. The protocol covers babies who fail to attend for their outpatient appointment.

This guideline is for use by the following staff groups:

DETAILS OF PROTOCOL

If a baby **WNB** for a **first appointment**:

Input 'WNB' as an outcome on both Auditbase (Audiology Database) and Smart 4 Hearing (national secure website) database

Contact guardian and reschedule appointment. Liaise with the contact for the most convenient date/time etc. available within national timescales. If no suitable appointment is available, please inform NHSP Manager so that national NHSP boards can be informed of reason for breach.

Update both databases with relevant appointment information and precis of telephone conversation.

Try to contact the family three times, and document this. Do not automatically send another appointment without contacting local newborn hearing screening admin clerk to check baby's details

The clerk must then action this within two days. If this is not possible, the Local Manager should be informed.

If a **2nd WNB**:

Check that guardian has been contacted by checking journal/ Smart 4 Hearing.

If she has been contacted, discharged and set outcomes accordingly.

Deactivate record on Smart 4 Hearing database.

Send out WNB letter to guardian and to GP/HV.
